To Shamballa, City of Light:

From your Radiant Presence there was sent forth aeons ago the very first call to the hearts and spirits of the Guardians of the Race to gather around the Banner of Beloved Sanat Kumara and to learn, again, how to teach the masses to redeem mankind and all imprisoned life, everywhere.

Into the lovely and gracious Presence of Sanat Kumara, the illuminati of the race *came*, answering the call of LOVE DIVINE! From Shamballa, went forth the first Messengers, anointed by Sanat Kumara, charged with the spiritual fires of a Newly Awakened Desire to serve the recalcitrant race.

Always the name of Shamballa rings in the hearts of those privileged to have visited IT, been blessed by It, and who have gone forth, renewed in Spiritual Vigor, to bless the masses of mankind. Now, a New Lord of the World occupies the place of Sanat Kumara! He, too, is a radiant Presence of Love, Lord Gautama. At the end of each year, into Shamballa come the Cosmic Beings, the Ascended Ones, the Angels, and the devoted chelas, to commune with Him, to be re-assigned to service in the name of imprisoned life everywhere!

We, Who have visited Shamballa, Who have walked over the Marble Bridge back into the world that requires assistance and redemption, bless the builders of Shamballa, Its original Great Lord, Sanat Kumara, and now, His Successor, Lord Guatama. Without the pressure of pure Divine Love, with which Sanat Kumara and Lord Gautama have animated Us, We should have slept the slumber of the lethargic rather than serving in Light The New Day! One Day, in the not too far distant future, Shamballa shall be known, loved and blessed by all mankind. Hasten that day!

THE THREE WORLD MOVEMENTS

THE GOLDEN PLUME OF WISDOM, THE BLUE PLUME OF POWER, THE PINK PLUME OF LOVE

An Instruction by Beloved Maha Chohan, read from the Platform at Philadelphia on November 8th, 1953, in which it is said that the Pink Plume of Love is The Bridge to Freedom Activity.

In explaining recently the perfectly ordered sequence of the three great releases of the Masters' Light and Love to the people of Earth in the last century or so, the Beloved Maha Chohan had this to say, in substance:

The Golden Plume of Wisdom

As you know, every 100 years the Great Ones in charge of a planet and the illumination and raising of their people, are given a quota of Light Substance, which is Energy, to use to forward Their Plans on that particular "star". In the 19th century (the 1800's) Those in charge of our planet used Their quota for that century in bringing forth and working through the Great Theosophical Society which did so much to make the Masters more real to the Western mind and world. There was much accomplished which made it so much easier to bring Their later activities into greater acceptance by the Western mind in both Europe and America. This, in reality, was a part of the Great Divine Plan for redeeming the Earth and her peoples, and was the release of the GOLDEN PLUME OF WISDOM of the Three-fold Flame — the Supreme Power in the Universe.

The Blue Plume of Power

In the 20th Century, about 1930, The Great Ones again invested Their energies through Mr. Ballard, to begin with, in the bringing forth and establishing the "I AM" Activity, and the group activities from about 1935 to 1950 returned that energy through the singing and decrees and various activities of the groups all over the world. This was the release of the BLUE PLUME OF POWER which quality, not being balanced by LOVE AND WISDOM, could not continue to do Its perfect work.

The Pink Plume of Love

The present NEW ENDEAVOR (The Bridge to Freedom Activity) has come forth as the PINK PLUME OF LOVE activity and must be carefully guarded and supported always by WISDOM AND POWER that it remains *Divine* Love and does not become soiled by the outer mind's ideas of so-called "love" or become maudlin sentimentality. Thus we see the thread of Truth running through all these Activities and "time and harvest" will prove the authenticity and God effect of this New Endeavor (The Bridge to Freedom). God bless you!

HOW TO USE THE SACRED FIRE

AN ADDRESS BY BELOVED ZARATHUSTRA

In Two Parts — Part I

Royal Teton July 8, 1954, morning

HAIL, oh spirits of fire from the Heart of God, thou who walk the pathway of life, I ZARATHUSTRA, Priest of the sacred fire from the Heart of the Central Sun, have been summoned by your light!

I stood before the Karmic Board and at thy direction I have come forth to speak directly to you who have applied from within the recesses of your innermost being for a knowledge in the use of the powers of the sacred fire . . . that sacred fire which is the master element in every sphere where it is active . . . that sacred fire which focused through the temples is now the master control and balance within every one of the seven spheres but which up to this point in the physical appearance world has been guarded, guided, protected and secluded within the retreats of the Ascended Masters!

The Cosmic Order of Zarathustra

It is time, the cosmic law has spoken, the fiat of the Eternal has gone forth, when the gifts and knowledge of the sacred fire, the balance which it brings, the radiation which it will sustain in the world of form is to come forth again under the control and protection of lifestreams who yet wear garments of flesh and have the authority vested within them because of those very garments of flesh to invoke, consecrate and radiate these powers of the sacred fire!

The Order of Zarathustra established in the Heart of the Central Sun of the System is carried by the Priests of Zarathustra to every Sun in the system, and at a given cosmic moment, from the Sun to every planet in the system does a Messenger of Zarathustra go and establish within that planet the knowledge of the sacred fire entrusting it to the Priests and Priestesses dedicated to sustaining and expanding its light. The Zarathustra then returns to the Sun and so from time to time there have been called forth from the heart of this universe, from the living Presence and radiant throne of Helios and Vesta, Priests of the Order of Zarathustra.

When the fire element was lost to the masses

In the first golden age which existed upon this planet, the great Zarathustra Who came with the first group of incarnating lifestreams was the master control of the fire element and the guardian spirit in each temple under His direction did draw forth and qualify life establishing forcefields which were radiant suns . . . stockpiles of qualified light . . . which were the nourishment of the peoples!

As the veil of maya in succeeding ages clouded the minds and consciousness of the race, the Order of Zarathustra became a secret and a sacred one. The Priests and Priestesses in the temple no longer divulged the powers of the sacred fire or the knowledge by which they were invoked, to the masses! Those who remained true, however, to the principle of Zarathustra did sustain in every succeeding age and era the certain *balance* through which the God life could be conducted to nourish and sustain and protect the peoples.

Then, as the Immortal Flame of God within the heart was ignored, as the attention of mankind fed primal life into the appearances and builded those entities of thought and feeling which formed the great blanket of astral and psychic pressure, even the physical use of the fire element was lost to the masses and there were eras upon this fair Earth where physical fire was known not! Such an era preceded the coming of Sanat Kumara and the Lords of the Flame from Venus. In those times the great hordes of savages, the degenerate races had no use and knowledge of fire, and the spiritual community wherein the spiritual lifestreams retained the knowledge of the physical fire were walled in, and the warmth, the comfort and the light of the fire which was a protection not only against the invisible psychic and astral creations but against the roaming animals was denied the mankind who had forgotten to feed and sustain the Immortal Flame which was their God Presence with all the powers of God the Father!

The arrival of Sanat Kumara

After the coming of the great Sanat Kumara and after His manifestation in the heart of Shamballa, where He drew through His Own energies the visible power of the sacred fire upon the altar and the elect witnessed the activity; after that rhythm was established and the individuals privileged and drawn by the magnetic pull of their own light and development entered the City of the Bridge, entered the glorious white island, and saw the Blazing Presence of the Immortal Flame upon the altar, they, through application and through invocation, through adoration to the sacred fire did magnetize again from the Heart of the Sun a Priest of the Order of Zarathustra Who came and walked the Earth and brought to mankind outside the walls of the sanctified the use of the physical flame once more.

That was the darkest period in the progress of the planet, the period when the Immortal Flame had dwindled to a tiny spark . . . the period when the physical flame which had been the protection of the evolution was known no more!

Why the Transmission Flame Activity was established

We come today to another cosmic moment, the bringing back into the use of the lifestreams who have shown sufficient interest in Our Cause the conscious use of the powers of the sacred fire, with which We are hoping you will choose to experiment, draw forth through your sanctuaries and group activities and into your homes, and if you can sustain the rhythm, if you can understand the application and if you can be constant in your magnetic pull, one day that fire will be visible in the physical appearance world!

It is to this end that the great Maha Chohan has chosen to establish the Transmission Flame activity. It is to this end that the forcefield through the sanctuary and group activities has been encouraged, and it is to this end that I, the Spirit of the sacred fire from the Heart of the Sun, have been invoked and come forth today . . . to vest you, each one, as a priest or priestess of the Order of Zarathustra . . . to bring to your remembrance once more the knowledge of the powers of the sacred fire IF YOU CHOOSE TO ACCEPT THEM!

Much has been spoken of in legend, much has been spoken of in myth and in occult law about the sacred fire! Yet the conscious mind is very vague as to exactly what it is. Allow Me the honor of reminding you!

Look now at the Holy Christ Self for a moment . . . there is the magnetic power vested within Its cosmic heart which draws pure primal life from your Presence, primal life which the Presence Itself has drawn

from the Sun of this system. Even if you belong to a superior system or the Central Sun Itself, when you act and function in a universe, the causative center which is the pulsation which feeds primal life through your vehicles is anchored through the localized unit of the Sun in the universe where you function.

Look at the Christ Self

Those of you from the Central Sun have a mighty stream of light flowing into the physical Sun, which is again magnetized by the White Fire Being and the White Fire Being directing it through the Electronic Presence of the Twin Rays, through your Holy Christ Self and your lower vehicles.

In order to clarify My picture and to concentrate your attention We shall eliminate that great cosmic skeleton of channeled energy and ask you to look at the Holy Christ Self.

Within the heart of the Holy Christ Self is the magnetic power of the Immortal Three-fold Flame of Life which does invoke primal light, drawing from the universal stockpile electrons. Now, look at an electron, just for a moment as I pass My hand through cosmic space We will stop the motion of that electron that you may look upon it. *Within it is the pattern of your own lifestream.* Within it is the divine pattern, the brand, you might say, which every electron invoked by your own White Fire Body and passed down for you through your vehicles has been stamped in order to differentiate it from all other primal energy flowing through other causative and invocative centers throughout this planet and universe.

An electron described

Within that electron is the pattern of your life . . . that means that everywhere that electron goes once it has been magnetized and directed through your Holy Christ Self into the use of your personal self and its vehicles, everywhere it goes it carries the brand and stamp of your self conscious invocation for use of light. Those electrons when they are clothed in form by thoughts of a discordant nature . . . when they are charged with feeling . . . and move out into the psychic and astral realm are part of your responsibility and must be redeemed through drawing them back into your own world and sending them back pure and perfect into your Causal Body where they belong.

Look upon this electron . . . it is primal life with your name written upon it. It is life you have applied for . . . it is life that you have drawn pure, shining, iridescent, magnificent from the pure Heart of the Sun! Within that electron, even within a drop of blood of your body, within that electron is the pattern of the Godhead, of the White Fire Body, of the Electronic Body and all the power and powers of the sacred fire in

this universe quiescent! It is like a beautiful drop of water, except that it is individualized by the stamp of your light pattern . . . a flower, a glorious maltese cross, an open lotus, whatever it may be. Fine!

Those electrons from your Holy Christ Self are destined to be magnetized by the Immortal Flame within your heart and their procession down through that series of vehicles which seize upon them should be completely uninterrupted by motion of the emotional body, mental body or etheric body. Those electrons magnetized from the "I AM' presence and entering the Holy Christ Flame within your heart are your "rod of power", your sceptre of dominion and authority, when uninterfered with, when you center yourself within that glorious, breathing Presence within you and silence, SILENCE, S I L E N C E the vibratory action of the feeling world, the mental world, the etheric world and the physical body, giving back to God primal life to use as It directs!

In the silence of those vehicles you can visualize and feel then the stream of electrons expanding the Presence of God within your heart, making that Immortal Three-Fold Flame of Life to grow, to mature and to become the Master Presence of primal life!

Then . . . then comes the activity of the priest or priestess of the sacred fire in qualifying life, for the sacred fire is but consciously qualified primal light directed forth for constructive intent through the free will consciousness of the God within the heart! Is that so difficult? Is it mysterious, occult?

Primal life, these electrons within the use of the Presence of God within the heart is then molded into form according to the perfect design of the mental body . . . if it is the Violet Flame the mental body outlining that magnificent action of the transmuting power of divine love, and the feeling body breathing into that glorious mental concept giving it energy and light, and the sacred fire then functioning within the mental and emotional world, the etheric body if stilled accepting it.

How to draw the Sacred Fire

Then the sacred fire lowered into the physical appearance world, through the instrument provided for such conduction, the physical body through the spoken word. Every vehicle provided to radiate the sacred fire in the realm and sphere which is made up of the same substance . . . that which is done in the mental sphere acts throughout the mental world of all mankind. That which is done in the feelings acts through the feeling world of all mankind. That which is accepted etherically acts within the etheric realm of all mankind!

BUT, in order to draw the sacred fire into the physical appearance world, the physical instrument, the vocal cords, the conducting power

of the hand and the consciousness of the physical instrument must be employed! That is the importance of coupling visualization, adoration and the activities which develop the inner bodies with the physical cooperation of the flesh!

Proof of this lies within the fact that the etheric realm which is the closest to the physical appearance world is already filled with perfection. The seventh sphere, belonging to your Master and My Pupil Saint Germain, is already in full use of the power of the Violet Fire. The physical appearance world that requires the assistance of this transmutation must have the coupling of the inner energies with the activities of the flesh. When that is done from realm to realm and sphere to sphere, one lifestream can draw any of the powers of the sacred fire first through the Electronic Body, the Causal, the Holy Christ Self, the emotional, mental, etheric and physical form. You will have then the seven-fold activity of the sacred fire flashing forth through your consciousness and into this world of form.

Mankind are extremely interested in releasing the power within the atom! God forgive them! It is only the power of the Zarathustra that shall release the active powers within the electron and the atom for benefits and blessings of the race!

Your great deserts, your barren waste land, are a result of the presumption of man in seeking to release these powers which can come forth only through divine love for the sustaining of balance and the conducting of the powers of God through the world of form!

I, Zarathustra, from the Heart of the Sun behind the Sun, speak into the atmosphere of this Earth today and say to every lifestream engaged in such a nefarious practice STOP, STOP, STOP in the name of GOD ere you destroy all that has come forth for the benefit of the race!

The sacred fire is like the physical fire. It is an activity of transmutation. Your physical fire, beloved ones, is a fourth dimentional activity drawn forth in the third dimensional world through the combination of two forces. Mankind have called it friction, — the combining of two elements by which a spark is struck and the flame invoked. Let Me show you that the same is true with the powers of the sacred fire from the inner realms!

The masculine and feminine elements must be combined

The masculine and feminine elements within the feeling world or within the mind must combine to create the spiritual spark from whence the sacred fire grows, develops and expands. Either element without the other is barren.

As the Great One brought forth to you, the feminine feeling, I will repeat: You have adoration, consecration, illumination and minis-

tration. These are feminine feelings . . . feelings of softness, feelings of mercy, feelings of benediction. When those powers are used they draw forth what? The sacred fire? No! Light! They draw forth the substance of light!

When the adoration flame, the concentrate of the mighty Chamuel, flows upward to any Godfree Being or to the Heart of Infinity, the return of that ray is a radiation of light. When the adoration flame is combined with the masculine feeling and used for protection or directed into the world of form as visitation, the carrying of the qualified blessing to benefit many, you have 'sacred fire'.

When the adoration flame is combined with the masculine flame of invocation, visitation and protection you have fire! Conversely the masculine element of feeling, invocation, visitation, protection alone are barren. They draw forth light. Invocation through the powers of the sacred fire draw forth a response of light from the Beings within it, the Beings invoked.

Invocation to become sacred fire must cross with ministration, the carrying of that power invoked into the world of form. Invocation must cross with illumination carrying the received thoughts into the world of form. Invocation must cross with the activity of consecration that the energies drawn from the Heart of God may be consecrated to service.

You must combine thought and feeling

When within one lifestream you take adoration and protection . . . invocation and ministration . . . or combine these elements you immediately have the balance which brings the sacred fire into the world of form! There is no exception, unfortunately, to this law!

It is the same if you take the principles of thought and feeling. Thought the great masculine element which draws the idea does not become a thing until the feminine element of feeling blends with it and gives it life, and form ensues.

We have endeavored to show you the powers of invocation and adoration . . . each magnificent in themselves . . . but the blending of the two brings the sacred fire which is the expanding, expanding, EXPANDING of the gifts of God into this world of form!

Now . . . each man and woman who desires to be a focus of the sacred fire in the world of form must develop from within himself the particular balance. The feminine must develop the masculine, the masculine the feminine and each lifestream become complete in itself.

I understand this perhaps is a little abstruse, but on the other hand if five of you get it, you should make a focus which is of merit!

The Master Saint Germain made a statement which is familiar to you all — "as the conscious is to the unconscious, so is the use of the flame to the recognition of the light." Think about it!

In the days and years ahead many will love the light. Many will enjoy the return currents from the qualified Priests and Priestesses which rising in adoration, we will say, bring forth a benediction which is soothing to the feelings, which is relaxing to the body, which is restful to the mind. They will enjoy the light as the moths come to the flame play in it, so will the masses, and so it has always been, enjoy the light. Others coming in distress of mind and body wishing healings of flesh will enjoy the light of the qualified Priests and Priestesses who through the power of invocation draw down that qualified light. These are the children of light; these are the beneficiaries of the workers; these are the drones that in their day will become workers. These are the ones that you will meet and I ask that you remember to feel no disappointment for they want the fruit, the harvest, but not the ways and means of securing it. But those of you within yourselves who are determined to become *conscious conductors* of the sacred fire . . . you who are willing to face the incendiaries doom, you who are willing to develop and mature the element within you that yet is quiescent, lethargic, you are those to whom I speak this morning. It is to you that I bring the crown of Zarathustra! It is to you that I give the remembrance of the way and means to draw forth the sacred fire!

You who are the Priests of the order of Melchizedek . . . Melchizedek walks again! I feel the stir in your hearts in remembrance as I speak the name! Jesus was of this order! Beloved Saint Germain was of this order! Mary was of this order! To you, who were among those who knew the powers of the sacred fire in Lemuria, on Atlantis, in the seventy thousand year civilization, in the heart of Egypt and in all the great ages where that sacred fire formed a funnel from the inner realms, to you I speak!

Homes and Retreats of the Masters of Wisdom

SHAMBALLA

(November 15th, 1958 through December 15th, 1958)

ONE of the greatest foci of Light, shining in the Etheric Realms above the Gobi desert is Shamballa, created, in love, by the disciples and pupils of Sanat Kumara as a fit dwelling place for His August Presence when He should, in love, make the voluntary exile from His Planetary Home, the Star Venus, to help the Earth and Its recalcitrant humanity.

The lesson of the building of Shamballa alone is one to be pondered upon sincerely by the dear and earnest chelas of today. Sanat Kumara offered to make the sacrifice of leaving His Star and abiding place, for a time in Earth's atmosphere, to hold by His Love, the very Planet (and Its evolutions) in the Planetary System to Which It belongs. Yet, the Vision of such Service was accompanied by *the practical service* of those beloved chelas of Sanat Kumara, who — realizing the tremendous sacrifice of Their Lord, came to the Earth nine hundred years before His Advent and they suffered tremendous opposition by those individuals who did not want the Earth and Its evolutions to survive.

These chelas, through constancy of purpose, love of Sanat Kumara, and willingness to undergo any hardships inflicted upon them by the temporary powers of darkness, did make the vision of Shamballa a fact through these nine hundred years of selfless, consecrated and devoted endeavors to create upon the resistant surface of the Earth, a duplicate of the glorious Shamballa of Venus.

Now, in this Cosmic Day, the chelas of the Beloved Ascended Master Saint Germain, have OPPORTUNITY, to create for Him, a similar beauty upon the Earth for His August Presence and that of His Lady, Portia. Shorter is the time, however, than was allotted to the blessed chelas of Sanat Kumara, but more assistance is forthcoming from Those of Us Who have achieved, through the assistance of Sanat Kumara, a

desire to help each earnest and sincere chela toward accomplishment of his or her part in the fulfillment of the Divine Plan for the Earth and Its peoples.

Shamballa again opens Her arms to those who have served the Earth and Its evolutions during the past year. Sanat Kumara, together with the New Lord of the World, Gautama, stand ready to greet and embrace those who have so lovingly and constantly served Them. Again, the Divine Beings and the earnest chelas will mingle in loving cooperation and counsel before the New Year of 1959 begins. All who have participated in the impersonal service to the evolutions presently using the Earth as a schoolroom, will again be privileged to place their harvest within the Immortal Victorious Three Fold Flame centered upon the Altar of the High Temple that crowns the White Island, making that Flame increase in power by their works well done.

Shamballa is a result of love incorporated into active and practical service in the Name of the Lords of Light! It shall always remain so and Its Temples, shining like the Sun at noonday, are open to those dear unascended chelas who desire, in the deepest recesses of their hearts, to expand the Light of the World!

The repetition of the Name "Shamballa" seven times, in reverence, either audibly or silently, will quickly raise the vibratory action of the earnest chelas as well as re-animate the etheric memories of visits There in the past as well as during this thirty day period. Thus the dear chelas can prove for themselves, not only the existence of Shamballa, but Its palpable Presence as a motivating power for the expansion of God's Kingdom of Heaven on Earth here and now!

There is always a focus of Light through which Any and Every Divine Being directs His Virtues and Radiation forth into the emotional, mental, etheric and physical strata wherein the greater numbers of mankind abide. SHAMBALLA is the focus of BALANCE wherein the focus of power, directed by wisdom and animated by love abides. All who require an expansion of that BALANCED POWER in their individual worlds will do well to avail themselves of the opportunity of entering the Holy City and, through proximity to Its Flame and Its Hierarch, receive the impetus required to continue their service in their own individual spheres of influence until this Earth is truly Freedom's Holy Star.

The very Spirit and Nature of Shamballa, Which forms the glorious Aura in, through and around this Holy City, is an outpicturing of the Vision of Sanat Kumara Whose motive, even before Its creation, was to bring to a shadow star and its peoples, Love Divine. This is equally true of the externalization of any plan that is brought forth upon the Earth — the actual motivating power behind the vision determines Its radiation, service and sustenance in the world of form.

Shamballa has been sustained in the etheric realm because of the constancy of devotion to the Vision of Sanat Kumara by Those Beings Who have foresworn Nirvana to sustain THAT LOVE DIVINE Which He brought for the benefaction of the race! Always, again and again, CONSTANCY OF PURPOSE IS THE MOTIVATING POWER OF ALL GOD ENDEAVORS and the devotion and consecration of Self Conscious Intelligences to that PURPOSE literally HOLDS the Focus of the Divine Beings Who established It, in Love, for the blessings of the Earth. Each Divine Being, Who so volunteers to magnetize and sustain such a God Focus, takes a voluntary vow to sustain that Focus until another Divine Being qualifies to sustain that Focus for Him or for Her. Thus, the love of Lord Gautama, which qualified Him to relieve Sanat Kumara of such a vow, cannot be over-emphasized. The Regent, Sanat Kumara, all Beings on Venus, and All of Us Who have loved and enjoyed Shamballa through the ages, bless Lord Gautama for assuming the responsibility and obligation of holding this Focus of Light to the present day!

Let Us join together on the Sacred Island of Shamballa and bless Him and His Court! Let Us breathe the blessings of Our collective love upon Shamballa and let Us renew Our association One with the other, in this Holy Time.

(NOTE: For other descriptions of Shamballa, please see *The Bridge to Freedom Journal*, Vol. 1 No. 7; Vol. 2 No. 8; Vol. 3 No.8; Vol. 4 No. 8; Vol. 5 No. 8; Vol. 6 No. 8)

MONTHLY LETTER TO TRANSMISSION FLAME CLASS

November 15, 1958

BELOVED CHILDREN OF GOD, SEEKING
YOUR WAY BACK HOME:

"I AM" so grateful We shall have opportunity, together, to enter the Sacred City of Shamballa, greet and counsel with Our friends (Divine and human) meet the beloved Founder of Shamballa, Sanat Kumara, and His gracious Successor, Lord Gautama! As the Flame at Shamballa burns high and the Divine Beings and the earnest chelas collectively bring in the harvest of their year (1958) of service, how happy each dear Sponsor is for the works so well done as a result of Their investment of energy, counsel and radiation to the chelas. This adds to the HAPPINESS AND BUOYANCY OF SHAMBALLA'S AUREOLE. Let Us remember always that eternal gratitude to the Divine Beings Who have established These Retreats and will keep the door open to the visitations afforded unascended beings to enter Them and profit thereby.

With Me, beloved, take the shoes off your feet, walk in reverence and holiness over the marble Bridge, visit the Temples of Shamballa and then bring the harvest of your year's endeavors to the feet of the Present

Hierarch, Lord Guatama, Who, as always, receives each such harvest, from the tiniest elemental's gift of love to the ones of greatest Elohimic Splendor in graciousness and gratitude because each such an one, using the power of his or her own developed capacity, has perservered constantly in the Cosmic Moment, now at hand, to make the Earth a Holy Star.

I have been, in a humble way, responsible for opening the Ascended Master Foci to the outer consciousness of mankind. I, also, have the responsibility to see that the chelas who so take advantage of this Dispensation utilize this Privilege, bringing back with them into their own spheres of influence the radiation and the will to serve wheresoever they are presently living on the landed surface of this Earth. As your blessed forcefields increase in power and efficacy through your visits to the various Temples and Retreats of the Ascended Masters, so do I rejoice, for it is the beginning of the re-establishment upon the very surface of the Earth of the glorious perfection wherein the various Flames of God will again be visible and tangible to the physical sight of all mankind. In this New Era, the peoples will have the blessings of these Flames and Virtues, will be able to bathe in Their Presence, and quickly accelerate their own lower vehicles by proximity to the Flame which is most required, according to whichever of the Seven Virtues is demanded by them to help them to fulfill their Divine Plan NOW!

BALANCE, POISE, LOVE, CONSTANCY! These are the gifts of Shamballa! Accept Them, as you enter the Holy City and bring them back, in joy, to your own forcefields, your cities, states, nations and continents. Thus are you conductors of the Gifts of the Gods. You have done well. You shall do even better. I shall kneel with you before the magnificent Three Fold Flame guarded and protected by the Kumaras and Lord Gautama and His Court and ask for a re-consecration of your energies for the service yet to be done!

Why You Don't Remember Your Glorious Past

AN ADDRESS BY BELOVED LORD MAITREYA

Flourtown, Pa. June 30, 1958

BLESSED and beloved ones, I greet you now in the office which I hold, which is the embodiment of the love aspect of the Deity. It is the love which the great Predecessor, Gautama, in His many, many Earth lives and since His Ascension has continued to expand to keep this planet Earth cradled in His blessing. It is the love to which I Myself aspire, and it is the love within your Holy Christ Flame, which continuing to expand through your outer self, shall in time quickly manifest, as the new era and age begins, and set you free from every shadow, distress and limitation into the glory and perfection of that Permanent Golden Age under the Ascended Master Saint Germain's direction.

Then every man, woman and child shall wear in grace and dignity the robes of Freedom; where every home shall be a temple of the Sacred Fire; where the veil of maya woven through the use of thought and feeling shall be removed forever between the consciousnss of mankind and the Divine Beings and where once again we shall counsel one with the other.

How your Light expands

Your strength, love and light increases by the proximity of Our Presence even now. and shall be expanded more in that day and in that hour when you may see Our living, breathing Presence and reality. To that end and to that day do We move. All of the Spiritual Hierarchy, all of the mighty Elohim, Who cooperated with Helios and Vesta in the creation of this blessed planet Earth who has been your Hostess for so long, all of the mighty Archangels and the Archaii, all of the Seraphim, Cherubim and the Angelic Host, all Cosmic Beings and Every One of the Great White Brotherhood Who have foresworn Nirvana are dedicated and consecrated to this one specific service: that of re-creating through the outer minds of mankind through their own "I AM" Presence and through their own Holy Christ Selves so that the directions of the Presence may be clear and distinct, and that the lower self may be so purified that never shall the cause and core of any personal or selfish motives externalize through the soul and allow the personality even for an instant to feel or be deceived by the erroneous concepts that it is a God prompting.

Beloved ones, we are engaged in the redemption of the souls of ten billion lifestreams, not all of whom belonged to the sweet planet Earth. Some came as you well know, from other Stars and Systems of Worlds. We are engaged in the cosmic redemption of imprisoned angels and elemental life and all life which suffers temporarily from distress; and you, in the unascended realm, through your kindness and cooperation with the

Ascended Master Saint Germain and with the beloved Ascended Master Morya, who are so dear to My heart have assisted tremendously in this purification which is essential for the establishment visible to the physical sight to mankind of the various foci of Cosmic Flames and Cosmic Rays.

Many of the peoples of Earth are interested today in what they call the solar and the cosmic rays. Interested only from the standpoint of curiosity, with the exception of the good men of science in research who are interested in utilizing those natural rays, wherein mankind's labors will be lessened.

There are many, many good, sincere individuals interested in experimenting with the unseen powers and drawing lesser activities than those from the God-free realm. Each one according to his own design, his own motive, his own capacity to reach into the Ascended Master's realm, and his capacity to hold fast that which is drawn there until it is anchored in his own emotional, mental, etheric and physical consciousness and then to pour forth as a blessing to all life around him. Each such one is receiving personal and individual training at this time.

Now, much of this training goes on while you are out of your physical bodies at night, and there is some temporary distress because you do not retain fully the consciousness of all that you experience at inner levels.

It is mercy not to remember the past

Beloved ones, I can affirm as others before Me Who have walked over this same Bridge established by Our beloved Son Morya, that it is a mercy, one of the great mercies of life, that individuals who yet either through their own unredeemed karma or through personal vows desire to remain or have to remain in physical embodiment, remember not the glorious freedom of those Inner Spheres fully in the outer consciousness. Beloved ones, you could scarcely be coaxed back into the physical vehicles which you wear with such patience, which have endured even in the course of this one life so many hardships, were you to fully bring into your outer mind at this time your experiences in the magnificent Ascended Master Realms of Light.

Then truly would your waking hours pall upon you, but gradually, according to the sincerity of your motives, according to your capacity to apply the knowledge already given, knowledge which you have received so freely, will there come a time when the here and the There will not be so far apart, when the vibratory action of your own vehicles shall be so raised and sustained in grace, that it shall not be a strain upon you. Then that magnificent memory shall be restored as to what you learn at the feet of the Ascended Masters at Inner Levels, which instruction you shall, in grace, bring forth in your waking state and utilize fully for the benefaction of all life, wheresoever you stand at any given moment.

Beloved and blessed ones, so long have I been World Teacher, so many civilizations have come and have gone, raised to tremendous heights, wherein the people have mastered the powers of levitation, precipitation, and yet always within those civilizations there was the seed of decay. Within the heart of all discord is the seed of decay and its fruit is manifold, causing those civilizations which were magnificent, in which many of you dwelt in great light, some of you being no part of that discord; yet those civilizations fell into decay and are no more except in the sketchy records of historians, or in the poetry and prose of the folk-lore of many lands.

Today, I say, beloved, We of the Ascended Host of Light shall leave not one seed of discord, not one cause and core of imperfection upon this Earth within the soul or outer consciousness of any lifestream who has used the Earth so freely for centuries. When the glorious Ascended Master Saint Germain builds His magnificent Permanent Golden Age there shall be naught to cause It to decline.

I thank, individually and collectively, those of you who have cognized at least a portion of the necessity of removing from the invisible realm the causes and cores of distress, rather than using just a palliative on the external manifestations, knowing by the power of the Cosmic Law that unless the cause is removed the same individual shall experience like effect embodiment after embodiment. Those of you who have kindly, not only made those calls for yourselves, but have made them likewise for all mankind and all imprisoned life have your names written in the heart of the beloved Ascended Master Saint Germain.

You have to utilize your substance

Think! How long that beloved One has waited, how long He has dreamed of a World Brotherhood wherein the light of the heart coming from the Universal Father, The Cosmic "I AM" Presence shining through the Holy Christ Selves of every man is the tie that binds all members of the human race in an impersonal Divine Brotherhood. That *life,* the only eternal part of you, is being released this hour and *constantly* from the fetters self-imposed or directed which are merely temporary change of human limitation. Beloved ones, accept this, the Law of Love as I have taught It and as My chelas have taught It for centuries. Each person's consciousness is like unto a cup held up and that knowledge which is poured into it, when it is filled to the brim and not utilized for the benefaction of the race, there is room for no more, until that is absorbed, digested spiritually and then radiated forth as a gift of faith, illumination, love, purity, consecration, peace, healing or supply.

As you allow the substance in your cup to radiate forth, giving yourselves time at first, to anchor the substance of the Ascended Masters' radiation into your own lower bodies, then does more of the radiation of

the Divine Beings come, your cup becomes broader in aspect, there is room for more Cosmic Truth and understanding to be revealed to you and you are freed from the karma of having received Divine knowledge and instruction and not using it.

For that karma too, is written in the book of your life, and your Master, your Guru, your Sponsor in the Ascended Masters' Realm is responsible for every aspect of Cosmic Truth which is presented to you *which you do not utilize.* THINK! on it, beloved ones, think on the amount of Truth that has been given to you recently. Think on how much you have utilized it, and how much is the obligation to the Divine Being Who is your Sponsor in the Ascended Masters' Realm.

All of you with a sense of spiritual integrity and pride, all of you with a sense of honor shall want to write on your book of life, that you have utilized to the best of your known capacity, that Law, that Love imparted, that Faith and Trust placed in the hands of unascended individuals by Divine Beings, as They share with you, in communion, Their very LIFE. Think on it. Think what the gift of a person's life is.

Even you in the unascended realm when you commune one with the other, you are sharing the priceless gift from the "I AM" Presence — Life, but is that life which you share with your fellowmen qualified with love, discrimination and power? Or is that life which you pour into the consciousness of another unascended being charged with sorrow and distress?

Let go of your distress into the Violet Fire

Beloved ones, make of the Ascended Host, the Angelic Host, any One of Us your Confessors. For that which you place into Our keeping, that which you lay at Our feet in the way of petitions, in the way of calls for assistance, We can transmute instantly, and return to you more quickly the blessing you require. Thus all of Us are willing to act and have acted for ages as Intermediaries and Intercessors between unascended mankind and the Godhead, not as idols, but as Elder Brothers and Sisters willing to accept that portion of your particular destructive karma which you desire to let go. Oh, how tenacious is the hold of the outer self consciousness upon its own karma. Only We Who pry a portion of it, at every visitation, know how tenacious is the hold of the outer self upon personality traits, etheric memories and every type of distress. Beloved, let go! let go of your distresses into the Violet Fire, into the keeping of Kwan Yin or of Our beloved Mother Mary or any One with Whom you have a particular affinity, even if you know not that you are holding unto certain distresses.

I speak truth from the heights of Heaven, when I say that there is karma that is stowed away in the most earnest and sincere lifestream, that should have long since been relinquished into the Violet Transmuting Flame. IN THE NAME OF GOD! LET GO! of that karma of a destructive nature. We are only asking that the burdens which you find so

heavy may be placed in that Violet Fire.

For every bit of that destructive karma, every human personality trait, and all human consciousness that you release, We will give back to you on the Flame and Ray of love, a permanent, good, Cosmic Virtue which will be of assistance to your blessed lifestream on its pilgrimage.

Hear you Me, children of Earth, as I speak to your minds and to your souls. I plead today that in the Name of the Ascended Master Saint Germain you place that destructive karma into the Freedom Flame and accept the blessings of My humble Self, and then of My great Teacher and Guru, the Lord of the World (Lord Gautama).

When the Cosmic Rays and Flames are made visible, in those certain sacred places, where they once were manifest, you shall have to have a strength of spirit and a humility beyond the understanding of the present day mind. What think you would be the activity in a large city were there to appear visibly and tangibly the magnificent Presence of the Archangel Michael, Master Saint Germain and His Freedom Flame? Do you know of the thousands of curious and greedy individuals who would rush toward you, toward the guardians of that invoked power. Prepare you then a solid phalanx of dedicated, consecrated, alert chelas for that day.

Prepare for the Day

For years now We have said, prepare you for the day, the day is upon us and the hour is here and the very Earth Itself moves on Her axis. Divinity's Realm is bursting with goodness, the Beloved Ascended Master Saint Germain Himself is at the very Door awaiting reception by unascended chelas, in a manner like unto that accorded Sanat Kumara as He came on His exile from Venus centuries ago. When the Lemurian Pole-Star reached Its zenith *there was no more time* and there, shining in the atmosphere above the Earth was Sanat Kumara and His Cosmic Court. Think you of the fidelity of those who prepared for 900 years for His coming. Think you of yourselves! this is the Era, it is the Hour the Star of Freedom has risen and the beloved Ascended Master Saint Germain shall bring forth His manifestations and you are the chelas upon whom He depends. You have had now years to prepare, I say to you before I relinquish the platform to Our beloved Lord of the World, your era of preparation is completed, your era of Service, in the Name of God! has begun.

Thank you.

THE "MIDDLE WAY" IS THE WAY OF PERFECT BALANCE

AN ADDRESS BY BELOVED LORD GAUTAMA
(New Lord of the World)

Flourtown, Pa. June 30, 1958

I BRING you peace — that Cosmic peace which can never be disturbed, which is the very essence of My Being, and therefore the greatest gift which I can give to you.

In these days, wherein all mankind and imprisoned life of every kind on Earth are in a state of temporary chaos, it is required that there be among unascended beings the peace makers. I, as the Lord of the World, give to you, my chelas, even you here assembled, the fulness of that peace which I achieved through ages of living. Accept it now and let it flow to and through you for your own comfort and for the salvation of those who will be drawn around you, as the moth to the flame, for sustenance, faith and protection in the years which begin, as the era wherein I become the sustaining power which so long was held by My Great Superior and Lord, Sanat Kumara.

A small endeavor is not sufficient

As you all know, it is My custom to delegate almost entirely all official ceremonials to My beloved Brother, Who has recently attained Buddhahood, Whom you have known as Lord Maitreya. It is seldom that I speak, even in the Ascended Master and Cosmic Realms, My nature being for so long to radiate that love, that peace, that comfort and tranquility, which We have endeavored to put into worded expression, simplified enough for the outer consciousness of mankind to comprehend. Beloved ones, the fulness of the way back into the Father's heart seems difficult. However, I can assure you that the only safe path is the one I have so long recommended as the "Middle Way", the way of perfect balance, attentive always to your God, and letting your radiance flow in benediction to the life that surrounds you, swerving neither to the left, — to the luke-warm — to the apathy and false security of individuals who have made some small endeavor, who feel that their work is done, nor swinging to the side of violence and overzealousness in a desire to accomplish that which even the Ascended and Divine Hosts Themselves cannot do through vehicles that are in the process of preparation for greater manifestation.

Hold therefore, as My counsel, the path of the Middle Way, which is kindly, centered, poised — swinging neither to the left nor to the right — but facing into the heart of your God, as I did long before you until I pierced through that veil, and — through the very powerful First Ray and sphere — into the exalted Presence of the Deity.

You too, as I before you, have made and are making a great sacrifice in returning and sustaining your physical vehicles on this Earth, in a time when Truth Itself is being unveiled, and I bless you for it. I know what it is to return to a vehicle from whence almost all of life had fled, during My seven year period of search in the inner realms until I reached the very Heart of the Deity. I also experienced the sacrifice of surrender after I had reached My goal — when I knew I would have to return to reanimate that form and walk among those still in bondage mentally and emotionally, bringing some of the Father's life, love and understanding to those pilgrims who gathered around Me.

Remember, I had the full conscious memory of all the beauty of the seven spheres, the memory of the Father-Mother God's glorious Presence, the radiance of the Highest Heaven while I walked the hot sands of India, teaching as I went. So I can agree with the beloved One Who spoke to you a few minutes ago before Me, when he said, "It is well that you have not yet the full conscious memory of all the glory you knew before this world of chaos was", because then it would be hard indeed for you to walk the Middle Way.

Assimilate what I have said.

Again I say, They call Me the "Lord of the World-the Lord of this sweet Earth", but what is a Lord without a kingdom? My kingdom is made up of all mankind, all life, all angels, all evolution that have used this Earth for a schoolroom and shall in the future. And with God's help I shall abide like Sanat Kumara in patience until some other Master of Love and Life qualifies for My position.

All this time, remember, you are My children and I love you with all that love which is mine to give. There is no censure in My love — there is no blame for temporary failure — there is only the deepest heart-felt feeling, which your own Holy Christ Flame shall expand through you, and quickly you shall yet know the truth, and knowing it — use it to set yourselves and all imprisoned life on this dear Earth free. I am and have always been, and shall remain the humble servant to your life, which is part of the life of My own heavenly Father, and I am always yours to command.

Peace, beyond the understanding of the human mind, is Mine and today it becomes yours. Empty not your cup so quickly but assimilate what I have said unto you! Thank you and good morning!

Your friend in God,

LORD GAUTAMA
